KIM JULONGBAYAN

Website Developer | Claude Code and Codex | Responsive Design and Quality Checks

Quezon City, Metro Manila, Philippines | kljulongbayan@gmail.com | +63 961 529 9305

Portfolio: kimlj.dev | GitHub: github.com/kimlj | LinkedIn: linkedin.com/in/kimjulongbayan

PROFESSIONAL SUMMARY

- Developer with 3 years of professional software development experience. Builds and maintains responsive websites, with hands-on Claude Code and Codex workflows and independent testing.
- Sole engineer on a production platform used by 15 people every workday, with responsibility for implementation, troubleshooting and ongoing maintenance.

TECHNICAL SKILLS

- Web development: HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS, responsive layouts
- Quality and delivery: Playwright, GitHub Actions, Git, Vercel, Lighthouse, browser troubleshooting
- SEO and integrations: metadata, structured data, sitemaps, Google Search Console, form routing, UTM tracking
- AI-assisted development: Claude Code, Codex, Claude API, automated checks and independent review

EXPERIENCE

MDS Pro Solutions - Full Stack Developer (Contract) | Feb 2026 - Present

- Built and maintains mdsprosolutions.com in HTML, CSS and JavaScript, including responsive layouts and forms routing inquiries to sales and applications to HR.
- Implemented page titles, heading fixes, canonical URLs, structured data, sitemap and search indexing tools on the company marketing site.
- Improved mobile performance from 83 to 93 in comparable local Lighthouse runs through critical CSS, deferred scripts and responsive images; layout shift remained zero.
- Sole engineer on the timekeeping and billing platform used every workday by 15 people, covering the database, API, dashboard and published Chrome extension.
- Built a public AI assistant with a human handoff by email when it cannot answer, with rate limits and spend controls on the service.
- Generated payroll and client-invoice workbooks from one shared pay calculation, keeping dashboard and exported figures consistent.

PROJECTS

kimlj.dev - Personal Portfolio and Interactive Demos | HTML, CSS, JavaScript

- Designed and built a custom portfolio without a template, with light and dark themes, responsive phone layouts and reduced-motion support.
- Created a live project hub at kimlj.dev/hub so visitors can inspect interactive demonstrations alongside the project descriptions.

WordWarz.io - Responsive Web and Mobile Game | React, Playwright

- Built phone, tablet and desktop layouts; added a Playwright suite that plays a real two-browser match and checks layout selection, running in CI on pull requests and pushes.
- Implemented four search discovery pages with metadata and structured data, plus first-touch UTM and referrer tracking connected to game activity.
- Isolated browser tests from production with a fresh database and blocked requests to production domains, preventing test matches from affecting real players.

Cockpit - AI Development Workflow | Claude Code, Codex

- Built on DeepSeek Harness with coding agents, automated verification and independent review before owner approval. Not public yet; live walkthrough and commit history available.
- Claude Code made the public video at kimlj.dev/cockpit. Portfolio and interactive project demos at kimlj.dev/hub.

RecodeAI - AI Website Redesigner | Next.js, Claude API

- Built a pipeline that crawls a website, analyzes its brand with Claude, generates a redesign and deploys it to a live URL, with progress streamed to the browser.

EDUCATION

- BS Information Technology, AMA Computer College Makati. 3 of 4 years completed; degree not conferred.
